

15th Annual MGS Auction at the September 17th Meeting

At the September 17, 2017, meeting, the Maryland Geological Society will hold its 15th annual auction. This auction features fossils, minerals, archaeological artifacts, and meteorites. Previous auctions have been a huge success, everyone has had fun, and the money raised for the MGS Treasury has kept the club's annual dues low!

What you need to know if you want to submit specimens to the auction:

- 1 - Members can bring up to ten specimens of mineral, fossils, artifacts, or meteorites.
- 2 - **Duplicate copies** of the **auction form** (see next page) listing the specimens must be submitted (one is for the auctioneer and one is for the cashier). You might want to make a third copy in order to follow along with the auction. Handmade copies are accepted.
- 3 - Each specimen should be labelled and numbered with an identifying tag from the **identification tag form** (see last page). Proper identification and localities must be placed on the tags.
- 4 - Minimum bids can be placed on the item and the item will **not** be undersold.
- 5 - MGS will assess a 10% fee on each item sold.
